Zhunisali Shanabek
Senior Python Developer

Core skills

○ Experienced Python Developer
○ Broad development knowledge, including DevOps, Linux, AWS.
○ Experienced in web development with frameworks such as Python, Vue.js

Experience

May 2023 - Current time, Senior Go Developer, Arcana Inc.
✓ Development of services in GovTech with Python, FastAPI
✓ Integration with government services, government databases, blockchain networks
✓ Creating architecture of projects

September 2021 - March 2023, Senior Software Engineer, https://ventionteams.com
✓ Development of international startup apps with Flask Python, Vue.js, Nuxt.js, GraphQL

June 2020 - September 2021, Backend developer, The Flow
The Flow is an educational platform of marketing, SMM courses.
✓ Developed backend with Django
✓ Developed frontend with Vue.js
✓ Integration with "CloudPayments" payment gateway
✓ Users' assets are stored in Amazon S3 bucket
✓ 20K students learn every day in platform

Mar 2019 - September 2019, Full-stack developer, ClearRoad France
I worked in the startup, which is based in Lille city, France. The startup collects taxes by getting GPS data from drivers. They pay tax only for road usage. I created an admin dashboard where road owners, e.g government can set the price per mile.
✓ Developed back-end with Django framework (Python)
✓ Wrote front-end with Bootstrap, VueJS
✓ Gitlab CI/CD

Education

2022, "Team Lead Fundamentals" Course. Almaty, Kazakhstan
Successfully finished course. Gained knowledge of effectively managing IT teams

2018 - 2019, "UNIT Factory" private school. Kyiv, Ukraine
It's a sister school of Paris "42" school which works without teachers and classes. There we believe in:
○ peer-to-peer learning.
○ project-based learning
○ personalized education

2015 - 2019, Suleyman Demirel University. Almaty, Kazakhstan
BSc in Computer Science.
